THE new arrival at the White House is the first infant born tlere.

Jupus Ross of Los Angeles is the lion of the hour in California. He knows the law and is not afraid to enforce it.

It is not every corporate body that can give birth to a half dozen sons in as many months. Cochise has performed this feat.

WE'LL wager 16 to 1 that it would have been a boy if Grover had not had such a spleen against silver. It never would do to rear a gold bug from the White House.

For the first time in sixty days the national banks hold an increase over the 25 per cent rule. In other words they are not now breaking the law that they have been breaking for many weeks.

It would be interesting to know how many members of the senate and house own national bank stock. Stewart of Nevada wants to find out but it is not probable that he will ever

New Mexico has a judge from Virginis in the person of Tom Smith. Just what relationship he bears to Pocobentas is not public yet, but probably will be known when the Republican papers get after him.

CARLISLE proposes to coin the bullion which the government made off the silver mines of the west, known in polite circles as the seignoirage. This amounts to about \$50,000,000, and belongs to the people, and those who produced it are willing to have it returned to them.

A NATIONAL bank is not safer than any other bank. The paper money issued by them known as bank notes is secured by government bonds; that is, the government guarantees to pay the bearer coin for these notes on presentation. That is why they are called national banks. A depositor in a national bank has no more cause to feel safe than though his money were in a private bank.

THE report which has been circulated that Supervisor Perkins left the territory without a leave of absence is untrue. Mr. Perkins asked for and was granted a leave of absence in July after the board, of which he was chairman, was compelled to withdraw. The minutes of the board show no record of this, as Mr. Perkins states, that he did not recognize Mesers. Reilly and Bryan as being supervisors and never recognized them as such. He was granted a leave of absence in writing by the board of which he was and is chairman.

THE selection of C. S. Clark as supervisor in place of Frank Hare, re- costs. In the suit of Watt and Lipsigned, is a fitting one. He has been a resident of the county since its birth. nearly fourteen years ago. He was postmaster under Cleveland's former administration and gave entire satisfaction. He was speaker of the house in the 16th legislature and filled that office in an intelligent and pleasing manner. He is conversant with Cochise county affairs, and cannot but be a valuable acquisition to the board. It was only after strong appeals to him from many citizens that he accepted the appointment.

#### A New Supervisor.

The board of supervisors met this afternoon and served a notice on Probate Judge Monmonier to be present at 2:30 to take part in the election of a new supervisor. He appeared at

C. S. Clark was placed in nomination and a poll resulted in his selection by the affirmative votes of Supervisors Perkins and Nichols, Mr. Monmonier declining to vote.

The latter presented reasons in writing for not voting. He declined for the reason that the question of title to the office of supervisors was in will return to Tombstone in a few the supreme court, and he being a days, after leaving his motherless indicial officer did not care to mix up

Mr. Clark was notified by the clerk of his election, and the board took a es until 4:30.

R. W. Wood is back from Phenix.

Jake Miller has returned from Mis ouri.

Go to Cohu's and buy a \$10 dollar meerschaum pipe for \$5.

The Rawhides beat the Tombstone by a score of 19 to 15 yesterday.

Supervisor Clark filed his bond this afternoon with S. M. Barrow and W. C. Green as sureties.

Tombstone is to lose another of its Cohn, who will move to Phenix early in October.

There is nothing in the game law passed by the last legislature which prevents the killing of wild ducks at any time of the year.

You can buy smokers' articles, pocket cutlery, etc., cheaper at Cohn's than you can buy the same goods at wholesale in New York.

Sheriff White this morning attached the saloon of Tom Vaughn at Bisbee to secure a bill held against him by J. F. Johnston & Co. of El Paso.

Mrs. Cleveland gave birth to a daughter on Saturday last, Grover was disappointed because it was not a boy. So says the family physician.

The Jewish New Year began last night at sundown and will last till tonight at sundown. It was generally observed by the Jewish residents of Tombstone.

The round-up in Grant county, New Mexico, begins today. A large number of Arizona cattle have wandered into that county during the

Supervisor Perkins accompanied Scott White over to Bisbee yesterday Ha was received there with an ovation by the citizens with whom he spent ten years past.

L. Meyer, representing the New Orleans Brewing Association is visiting Tombstone. He is agent for the territory embracing Mexico and Central America.

The Albuquerque Citizen has just donned a new dress. The Citizen is by far the best newspaper in the southwest and its full columns speak volumes for the prosperity of Albu-

Pete Hook has moved into the Pony Saloon where he will be pleased to see his old customers and also those who tied to Napa Nick. The latter retired on Saturday night from choice and will take a rest for a few weeks.

Mr. Armeny, the owner of the turquoise mines in Turquois district, after taking a look at his property, took his departure on Monday for New Mexico, where he owns the most valuable turquoise mines in the United States.

In Justice Duncan's court today a change of venue was allowed defendant in the case of A. H. Emannel va James Reilly, defendant paying the pert vs. the City, the motion for change of venue was recalled and the case will go to trial tomorrow at 10 o'clock.

Another brilliant gathering assem bled at the Methodist church last evening to witness the closing service of Rev. Downs' term in Tombstone The house was crowded, and although little preparation had been made, the exercises were greatly enjoyed by the large audience. The recitations by the little folks, the solos and duets by the ladies and the addresses by Revs. Nugent and Downs were much appreciated.

The sad intelligence was received yesterday by J. V. Vickers of the death at Porterville, New York, of the death of Mrs. B. F. Packard. The deceased was a favorite with Tombstone people who knew her only to feel the loss of a friend of exemplary character and disposition. She had been suffering from a bronchial trouble, and last May went to her old home for treatment. She was told hat the worst was inevitable and died of quick consumption. Mr. Packard children in care of relatives.

GROVER CLETELAND should fire his family dentist and physician. These two worthies take pride in giving the public family secrets.

The first license to mine by the hydraulic process under the Caminetti law, was signed by the United States debris commission for California today. The corporation to which this privilege was granted is the Eureka Lake and Yuba canal company.

Arrangements made for strengthing the naval fleet at the China station are significant. The gunboat Noyes, 820 Power's Block, Rochester N. T. 1, 18, 1 wr Concord is now on its way to China and the Petrel has also been ordered there. The cruiser Baltimore is also on the way to China.

There appears little if any doubt Neb. that the present administration intends to enforce the Geary Chinese act and in case the law is rigedly enforced Yang Yu the new Chinese minister will withdraw to China. There is some fear evidently that the Chinese government will retaliate when the attempt is made to enforce the

President Cleveland absolutely refuses to consent to grant any concessions in the silver fight. More than this, he will not promise to agree to any recognition of silver even should the repeal bill be passed. This is the sum and substance of his position, as reported by a senator who had a conference with him yesterday.

Large numbers of Chinese are entering New York under the guise of A M Benson atudents and actors. students and actors.

Cris Buckley and family have returned to the United States and are located in Boston. The "Blind Boss" says he will return to San Francisco

Attorney-General Olney has instructed the U. S. marshale to take no Dated August 16, 1893 of the Geary registration law, p

specific instructions to the contrary from Washington.

The silver senators still insist that a vote cannot be reached at all within the rules. Under the rules of the Supervisors of Cochise county held senate there are no provisions whatever for shutting off debate. It is not probable that such rules will be adopted now,

A dispatch from San Bernardino states that three hundred Chinese cooks, waiters and other laborers quit work yesterday, by order of the Six Companies. The Southern hotel is closed for lack of help. The Chinese say they will return to China.

It appears to be long work to close the debate in the senate on the repeal bill. It is stated that thirty-three senators have arranged to speak, and ten or a dozen others may take a hand before the conclusion of the debate. Should this be true it is more than probable that snow will fly before the matter is settled.

Senator Stewart submitted a resolution for a committee of five to report whether there are any senators interested as stockholders or otherwise in any national bank. Hill objected to it on the ground that it was a personal reflection on the senators and it went over until tomorrow.

The new Chinese minister to this country, Jang Yue, was at the state department yesterday and, it is understood, was informed by Secretary Gresham of the intention of the administration to suspend further action under registration pending the action of congress on the bill introduced by Representative Everett to extend to Sept. 1, 1894, the time in which Chinese may register,

Editor Shortridge of the San Jose Mercury was fined for contempt of court in publishing the proceedings of a divorce suit, in violation of the court's instructions not to do so. He appealed, and the supreme court decides that in this country the principle that people have a right to know what is done in the courts is essential on appeal was dismissed at plaintiffs to the public welfare and the judgment of the superior court is overruled.

Those who profess to know what the local Chinese are about to do, declare that the consul-general and the Six Companies are preparing a petiexcess of the requirements of the 25 tion to send to President Cleveland. The document will place the blame for the Chinese not registering heretofore upon the faith they gave their American legal advisers, who assured them that the Geary law could not stand. It will promise allegiance in the future, and pray for an extension
